**EQUIVALENT** means that the State law directly references the relevant provision or regulation of the Federal Food, Drug, and Cosmetic Act (FD&C Act) or Title 21 Code of Federal Regulations (CFR).

**EQUIVALENT IN EFFECT** means that the State law has the same regulatory effect as the relevant FD&C Act provision or CFR regulation. A State law may have the same regulatory effect as the Federal law or regulation if either a single State law or rule has the same regulatory effect as the Federal law or regulation, or when multiple laws of that State are combined and deemed equivalent to a single Federal law or regulation.

**NOT EQUIVALENT** means (1) there is no State law equivalent to the relevant Federal law or regulation, (2) there is such a State law, but it does not apply to the State’s program, or (3) the Federal and State laws address the same matter but are inconsistent and do not have the same regulatory effect.

---

**Title 21 Code of Federal Regulations: Food and Drugs**

114 Acidified foods
115 Shell eggs
117 Current Good Manufacturing Practice and Hazard Analysis and Risk-Based Preventive Controls for Human Food
118 Production, Storage, and Transportation of Shell Eggs

**Complete if State law or regulation citation is EQUIVALENT.**

**Complete if State law or regulation citation is EQUIVALENT IN EFFECT.**

**Enter review date.**

**Mark if there is no State law or regulation that is EQUIVALENT or EQUIVALENT IN EFFECT.**

**Detail differences between State and Federal laws and regulations.**

If regulatory responsibility falls under the jurisdiction of another agency delineate which agency has the jurisdiction.
