During the 2016 Rapid Response Team hurricane activations, damaged areas were broken down by zip code and county. Strike teams assessed food facilities in these areas by visit and by phone.

## Food Emergencies and Disaster Preparation

Florida's Integrated Rapid Response Team (FLIRRT) is a multi-agency coordination group responding to feed and food emergency under the Rapid Response Team Food and Drug Administration (FDA) Cooperative Grant Program.

Florida is one of 21 states participating in this program, beginning in 2008. Partner agencies include the FDA, the Florida Department of Health, and Florida Department of Business and Professional Regulation.

FLIRRT consists of technical experts in food manufacturing, food inspection, environmental health and epidemiology.

FLIRRT is an active partner in Emergency Support Function 11 (Food and Water) at Florida's State Emergency Operations Center. In 2016, FLIRRT responded to two natural disaster events: Hurricane Hermine and Hurricane Matthew.

### Types of FLIRRT Responses

- Natural Disasters – hurricanes, floods, tornadoes, etc.
- [Food recalls](#)
- [Foodborne outbreaks](#)
- Intentional food contamination
- Agency exceeds its capability to respond

### Program Resources
