Standard 6 Tips & Tricks

Linda Condon

Compliance Manager

Washington State Dept. of Agriculture

Monday, February 10, 2020

3 pm panel discussion

Pulling & Tracking Data

- Daily use of works-in-progress Excel spreadsheet with several worksheets.
- Tracking field-issued compliance actions through to all HQ-issued available progressive enforcement tools.
- All data easily modified for annual self-assessment, Appendix 6.2.

Quality Check with FRED

- Food Records Electronic Database (FRED), old technology, sequel server, not web-based.
- FRED reports exported to Excel, further manually manipulated, to compare with Compliance Manager data.
- Verify FRED & Compliance Manager data consistent without missing actions.
